

# INTERACTIVE ELECTRONIC TECHNICAL PUBLICATIONS

# C-130J Interactive Electronic Technical Publications (IETP)

The Lockheed Martin IETP converts the current C-130J PDF maintenance manual sets into a single three-gigabyte database displayed in common HTML browsers. The IETP is compliant with Issue 4.0.1 of the S1000D Specification. Tasks in the IETP Viewer have flexible display capabilities such as adjustable document viewing areas, pop-out windows and task print preview. Current functionality includes configuration filtering by aircraft tail number, graphics hot spotting, integrated operational supplements and a powerful search capability.

Future enhancements include interoperability with DTADS reports to help the maintainer get to the correct fault isolation task with the push of a button.

## Benefits

- More frequent updates
- Increased information accuracy

Lockheed Martin's C-130 Technical Publications team has provided publications expertise and experience to the global C-130 community for more than 65 years. This expertise is backed by the Lockheed Martin OEM reputation for safety, engineering and reliability. As manufacturer of the C-130 series of aircraft, Lockheed Martin has a vital interest in the safety, maintenance, and successful flight operations of customer aircraft. Development and deployment of an S1000D IETP brings an evolutionary change to the management and sustainment of technical data and serves as one of the cornerstones of an integrated logistics solution for the C-130J platform.
