

IDENTICAL PARTS WITHIN A BAG OR BOX

1.0 SCOPE

This standard provides for the packaging of multiple identical small parts in a container (bag or box).

2.0 GENERAL

- 2.1 The requirements of LPS-40-001 latest revision (General Requirements Specification) shall be met in addition to the provisions of this packaging standard.
- 2.2 When applicable, the suffix (s) following the basic callout (P-32R4) refers to item quantity allowed per unit container and/or type of container required. (See following example and Table 1).

3.0 UNIT PACKAGING (SEE FIGURE 1)

- 3.1 Unless otherwise specified by a quantity suffix, the unit container shall not exceed 10 pounds per container.
- 3.2 Unless otherwise specified by a unit container suffix, the unit container shall be supplier option.
- 3.3 Close bag by heat sealing, press seal, tape or staples. Allow sufficient material to accomplish at least one additional closure.

4.0 INTERMEDIATE PACKAGING (SEE FIGURE 2)

Table 1 UNIT CONTAINERS		
SUFFIX	TYPE	SPECIFICATION / LIMITATION
A	Bag	commercially available
B	Box, Fiber	commercially available
C	Bag or Box, Fiber	commercially available, unit of issue is ounce max of 16 oz./unit container
