

Exclusive Military Spares and Repair Distributor

Derco is the **EXCLUSIVE** international (excluding Japan) military distributor and worldwide repair center of Arkwin Industries Inc. The partnership between Derco and Arkwin provides military operators around the world with a rapid and reliable source to assist in maintaining aircraft availability. During the repair/overhaul process parts can be upgraded to the latest OEM configuration, and all C-130 repairs are Lockheed Martin Hologram Certified and come with a tamper resistant serialized label.

About Arkwin Industries Inc.

Based in Westbury, New York, Arkwin Industries Inc. designs, engineers, manufactures, and supports hydraulic, engine control/fuel system, and thrust reverser actuation components for the commercial aerospace, defense, maritime, and industrial markets. Arkwin's products are used on fixed-wing aircraft, helicopters, spacecraft, turbine engines, and many other applications.
