

Michelin F-16/C-130 Tires

Derco is a proud distributor of aircraft tires for Michelin North America, Inc.

Radial Tire Features (F-16)

Radial tires cool down up to two times faster than bias tires, enhancing turnaround time for aircraft availability.

Precision Engineered for high performance, Michelin radial tires offer the best balance across all performance areas.

- Optimized tread
- High-strength steel beads
- Inner liner
- Flexible casing design
- Customized rubber compounds
- Lightweight radial design
- Belt plies
- Extra strong casing
- Casing ply turn-ups

Bias Tire Features (C-130)

Transport – Strong tire sidewalls help reduce tire damages when landing on rough surfaces. Michelin bias tires offer proven performance and reliability, and are ideal for demanding applications with heavy load requirements.

- Tread
- Undertread
- Casing plies
- Inner liner
- Sidewall

Derco Support

Derco is an authorized distributor for Michelin North America, Inc. OEM Authorization letter is available upon request. For more information, please contact a Derco representative.

Michelin C-130/L100 Tires

Derco is an authorized distributor for Michelin North America, Inc. Michelin tires for the C-130/L-100 are precision-engineered to deliver ultra-high performance and long life for more landings.

C-130/L100 Tire Construction

- Optimization of circumferential grooves
- Deep skid depth for extended life and durable cut-resistant tread
- Extra strong carcass piles for increased load-carrying capacity
- Specially compounded inner liner
- 3 Beads for exceptional durability and strength
- Wear-reducing chafer strips
- Unique chemical compound provides protection against ultraviolet rays and ozone deterioration
- Durable undertread for strength and retreadability
- Carcass ply turn-ups for increased transitional stability

Feature	Nose Tires		Main Tires	
Size/PR	12.50-16/12	39x13/14	20.00-20/26PR	56x20-20/24PR
Part Number	008-369-0	033-754-1	008-413-2	038-881-0
NSN	2620-00-834-6673	N/A	262-00-142-5161	N/A
Rated Load	12,800	15,000	46,500	38,500
Rated Pressure	75psi	100psi	125psi	110psi
Rated Speed (mph)	150	210	200	210

F-15 Aircraft Tires

Derco is a proud distributor of aircraft tires for Michelin North America, Inc.

Product Features

- Michelin radial tires allow for up to 100% more landings than a bias counterpart while having a better capacity to withstand aircraft overload*
- Michelin bias tires provide better hazard resistance under extreme landing conditions thanks to a contoured shoulder design

Derco Support

Derco is an authorized distributor for Michelin North America, Inc. OEM Authorization letter is available upon request. For more information, please contact a Derco representative.

* Radial compared to bias. Michelin's estimates based on a study of six representative fighter jet tire sizes.

Platform	Position	Tire Type	Size	Ply Rating	Part Number	NSN
F-15 A/B/C/D	MLG	Bias	34.5x9.75-18	26	008-723-3	2620-01-055-4600
F-15 Desert	NLG	Bias	22x6.6-10	18	005-652-0	2620-01-493-7878
F-15 Desert	MLG	Bias	34.5x9.75-18	26	005-723-0	2620-01-493-7142
